

# ICN New Work Programme

## Capacity Building and Competition Policy Implementation

### Topics to be discussed:

#### **General conditions in the developing countries**

- Introduction and consolidation of free market structures
- Readiness to adopt competition law regulations in legislation
- Designation of responsible authority at government level
- Cooperation with the development of a consultancy contract at multinational or bilateral level, including analysis of actual state of affairs.
- Procurement of necessary contacts for the consultants to Parliament, government authorities, institutions of the relevant jurisdiction and to economic and social partners.
- Participation in funding the project

#### **Tasks of partner countries/Technical assistance**

- Clarification of the content, duration and overall funding of the mandate
- Collaboration in partnership with the relevant agencies of the executive, legislature and judiciary.
- Inclusion of experienced staff and interpreters in the consultancy work, where possible with indepth knowledge of the legal system **in the respective country**
- Preparation of legislative measures, as far as possible based on existing regulations or international documents (Model Law of UNCTAD).
- Assistance with setting up administration
- Setting up exchanges between experts
- Joint development of an evaluation system
